

**PROVET**  
ANIMAL HEALTH CARE

**No1 GREEK VETERINARY MANUFACTURER**

## 1. WHO WE ARE

**PROVET S.A.** is the #1 producer in Greece in the field of animal health care, both for livestock and companion animals. The company produces, trades and distributes a wide range of products, such as: Veterinary pharmaceuticals for livestock and companion animals, nutritional products, pet food and accessories for companion animals and surgical equipment. Throughout the company's 40 year innovative & dominant presence in the industry, and guided by scientific know-how, reliability and customer-oriented mentality, PROVET S.A. has managed to become the reference point for the veterinarian, the producer and the trader of the specialized distribution channel. The PROVET Group also includes **PROMIVET S.A.**, one of the largest distributors of veterinary products in Greece. PROMIVET covers fully the Greek market, both in terms of geographical coverage and range of products. Following the 2012 restructuring, PROMIVET's service portfolio has been expanded to cover the area of pet shops through the supply of pet food and accessories.

### CERTIFICATES

ISO 9001:2008

GLP (Good Laboratory Practice)

GMP (Good Manufacturing Practice)

## STRATEGIC ORIENTATION

In 2012, PROVET proceeded to an internal and strategic restructuring. Particular emphasis is given to the company's own products, aiming at increasing exports and developing new products such as products for antisepsis, animal grooming, as well as products derived from Greek herbal extracts. Furthermore, the company is focusing on strategic partnerships with multinationals – as with Bayer Healthcare – in order to ensure better quality of products and services and to make full use of its experienced and expert personnel.
